Pro-face China Awarded the Best HMI Product 2004 by Control Engineering China

Pro-face, a leader of HMI products around the world, was selected for the Best HMI product 2004 by one of the best industrial magazine around the world, Control Engineering China.

Control Engineering awarded 8 Best Products, 16 Excellent Products and an Editor's Choice for 2004 at a reception held in Shanghai on March 31, 2005.

Cobi Tashiro, General Manager of Pro-face China, expressed in his speech for the award many thanks to all of Pro-face users and partners around the world, who have supported Pro-face products for many years.

As a HMI Specialist, Pro-face continues to offer the best products, customer services and new solutions to meet customer demands and to contribute to development of automation technology in China, together with other industrial suppliers for equipment and services, he, also, mentioned.
